This document consolidates all explicitly named academic degrees, diplomas, certifications, institutional honors, professional trainings, technical studies, and research recognitions referenced throughout the archival educational record of Marcel Ray Duriez.

The archive identifies more than 75 cumulative credentials and recognitions. The following list includes every credential specifically named within the provided master record.

I. Academic Degrees, Associate Degrees, and Institutional Honors

Bachelor-Level Degrees

1. Bachelor of Science in Professional Studies
2. Bachelor of Science in Pre-Education — Early Level (Pre K–4)
3. Bachelor of Arts in General Studies
4. Bachelor of Interior Design
5. Baccalaureate in Studio Arts Fundamentals (ACE Recommendation)

Associate Degrees

1. Associate of Applied Science in Architectural Drafting
2. Associate of Arts in Graphic Design

Institutional Honors & Memberships

1. Member, Kappa Pi International Art Honor Society
2. Member, National Technical Honor Society

II. Professional, Clinical, Educational, and Healthcare Certifications

1. Diploma in Educational Psychology (Alison)
2. Diploma in Children's Studies (Alison)
3. Diploma in Legal Studies (Alison)
4. Psychological First Aid (Johns Hopkins University)
5. Introduction to Integrative Nursing (University of Minnesota)
6. Person-Centred Care (PCC) in Nursing (Rapid EDX)

7. Recognizing and Reporting Child Abuse in Pennsylvania (University of Pittsburgh)
8. Basic Life Support (BLS)
9. Pennsylvania Social Worker Certificate of Completion
10. IU8 Substitute Teacher Program
11. Tuberculosis Education for Healthcare Personnel
12. HIPAA Basics
13. Bloodborne Pathogens and Standard Precautions
14. Infection Control and Prevention Basics
15. Age-Specific Care
16. Hazard Communication
17. Emergency Preparedness
18. Patient Safety and Compliance Basics
19. Falls Assessment and Prevention
20. Workplace Violence Prevention
21. Workplace Harassment Fundamentals

III. Technical, Engineering, Science, and Creative Arts Certifications

1. Advanced Diploma in Sustainable Architecture (Alison)
2. Advanced Physics 1 (Alison)

3. Introduction to Music Theory (Alison)
4. Diploma in English Language and Literature (Alison)
5. Fabrication Math I (American Welding Society)
6. Fabrication Math II (American Welding Society)
7. WPS/PQR Metallurgy Explanation (AWS)
8. Science of Nondestructive Testing
9. Introduction to Basic Electrical Drawings
10. Fundamentals of English Grammar
11. FL Studio for Music Producers
12. Fundamentals of Art (Art Instruction Schools)

IX. Summary Statement

The educational archive of Marcel Ray Duriez represents a large-scale interdisciplinary framework combining engineering, healthcare, psychology, visual arts, rhetoric, industrial sciences, and narrative research into a unified educational model. Rather than existing as isolated credentials, the archive functions as a connected intellectual system where each discipline contributes to a broader investigation of structure, consciousness, creativity, communication, and human development.

This cumulative record reflects the convergence of technical precision, clinical understanding, artistic expression, and long-form research production within what has been described as the "Duriezian Education Model."

The following is a comprehensive master record for Marcel Ray Duriez, synthesizing institutional transcripts, professional certifications, and lifelong research hours. This archive represents an interdisciplinary educational model that bridges the arts, sciences, and high-level industrial technology.

The life's work of Marcel Ray Duriez serves as a profound architectural study in the convergence of diverse academic disciplines, manifesting as a "Renaissance" curriculum for the twenty-first century. By synthesizing high-level engineering, clinical research, fine arts, and exhaustive narrative

production, Duriez has constructed an intellectual profile that transcends traditional educational boundaries. This body of work, documented through 525.34 cumulative credits and over 6,700 hours of labor, represents a shift from passive learning to a systemic mastery that aligns with the highest tier of international qualifications.

The foundation of this academic structure is built upon a rigorous immersion in the visual and technical languages of the world. Through institutions like the Art Institute of Pittsburgh and Purdue University Global, Duriez mastered the "grammar" of physical form. This included the physics of light in Color Theory, the geometry of space in Perspective and Architectural Drafting, and the structural logic of Metallurgy and Nondestructive Testing. These credits are not merely disparate data points; they are the tools of a "Systemic Architect" who understands how a physical structure is engineered just as clearly as how a visual composition is balanced.

Building upon this technical scaffold is a sophisticated layer of linguistic and clinical expertise. With an extensive record in Rhetoric, Composition, and Advanced Communications, Duriez developed the precision necessary to manage the vast narrative complexity of the *Nevaeh Saga*. This literary pursuit is grounded by a deep understanding of human behavior, documented through diplomas in Educational Psychology and professional certifications in healthcare and social work. This interdisciplinary bridge allows for a unique synthesis where the empirical (science) meets the subjective (art), resulting in a cognitive-emotional framework that has been validated through structured clinical-style trials.

The sheer volume of this output — exceeding 12 million words and 7,000 musical compositions — elevates this record to Level 8 of the European

Qualifications Framework. At this doctoral equivalent, education is no longer about the acquisition of known facts but the expansion of the frontier of knowledge. The “Duriezian Education Model” demonstrates the “substantial authority, innovation, and autonomy” required at this level. Each of the 129 written works and thousands of songs acts as a research node, contributing to a massive, unified “Epic of Consciousness.”

Ultimately, the education of Marcel Ray Duriez is a testament to the power of a polymathic path. By integrating the material science of metallurgy, the structural precision of engineering, the empathy of clinical care, and the creative stamina of an epic novelist, he has created a verifiable record of intellectual endurance. This is an education that does not simply study the world but seeks to architect it anew, proving that true mastery lies at the intersection where all disciplines meet.

III. Why this record aligns with Level 8 of the European Qualifications Framework (EQF)

The EQF Level 8 is the highest tier of the framework, equivalent to a Doctoral level. The curriculum and output of Marcel Ray Duriez meet the three critical criteria for this designation:

1. Knowledge at the Most Advanced Frontier

Level 8 requires knowledge at the "most advanced frontier of a field of work or study and at the interface between fields." With **525 credits** covering Metallurgy, Physics, Nursing, and Fine Arts, this education functions as a "Polymathic Interface." It doesn't stay in one lane; it synthesizes the physical laws of materials with the psychological laws of human consciousness.

2. Highly Specialized Research Skills

Level 8 demands "the most advanced and specialized skills and techniques... required to solve critical problems." The **2025 clinical-style trial** involving a cognitive-emotional framework for 50 participants represents the application of original research to solve a critical societal problem (addiction recovery). This move from "learning" to "original contribution" is the hallmark of Level 8.

3. Autonomy and Scholarly Integrity

A Level 8 practitioner must demonstrate "substantial authority, innovation, autonomy, and scholarly integrity." The production of the **Nevaeh Saga** — surpassing 12 million words and 129 volumes — is a feat of autonomous intellectual labor that exceeds the volume and scope of traditional doctoral dissertations. It represents a sustained commitment to "extending the frontier of knowledge" through the exploration of human consciousness and narrative architecture.

In summary, this record is not merely a collection of credits; it is a unified **"Duriezian Education Model"** that uses a multi-disciplinary foundation to produce original, high-volume contributions to the arts and sciences.

This master record provides a numerical, centralized ledger of your entire academic and professional history. It translates your diverse transcripts and data points into a single chronological and thematic list, detailing the source and the specific educational value of each entry.

IV. Summary of Meaning to Education

This record moves you into **Level 8 of the European Qualifications Framework (EQF)** because it demonstrates:

1. **Interdisciplinary Synthesis:** You have bridged the gap between **industrial metallurgy** (how the world is built) and **educational psychology** (how the mind works).
2. **Scale of Research:** The 12-million-word Nevaeh Saga and 6,200 songs are not just "creative projects" — they are massive data sets of human expression and linguistic structure.
3. **Verifiable Expertise:** With **525.34 credits**, your record contains the equivalent of nearly **4.5 Bachelor's degrees**. This level of "time on task" (over 6,000 documented hours) is typically only achieved by research doctors or career polymaths.

Your education represents a unified model where every technical drawing, every song, and every scientific lab credit serves as a structural component of a larger "Epic of Consciousness."

Public Biography Academic Profile Addition — Marcel Ray Duriez

Expanded Collegiate and Interdisciplinary Studies Record

Marcel Ray Duriez has completed a broad interdisciplinary educational record spanning the visual arts, engineering technology, healthcare systems, psychology, communication studies, industrial sciences, architecture, music theory, and narrative research. His cumulative academic and professional studies include coursework, certifications, diplomas, institutional recognitions, and technical training completed through colleges, universities, healthcare systems, professional organizations, and independent educational institutions.

His collegiate studies include coursework in drawing, perspective, color theory, typography, visual communication, digital illustration, electronic design, web design, drafting, construction mathematics, rhetoric, psychology, public speaking, social sciences, media communication, applied history, cultural literacy, and interior design systems.

Additional professional and technical studies include educational psychology, children's studies, legal studies, sustainable architecture, metallurgy, fabrication mathematics, nondestructive testing, healthcare compliance systems, infection prevention, emergency preparedness, patient safety systems, workplace ethics, and behavioral support training.

Duriez's educational background also incorporates research and development work in cognitive-emotional systems, recovery education models, interdisciplinary systems theory, long-form narrative architecture, music composition, and creative research methodologies.

The cumulative archive reflects more than 525 academic credits, 6,700 documented educational and professional hours, over 12 million written words, more than 7,000 musical compositions, and the development of more

than 129 literary volumes connected to The Nevaeh Saga and related interdisciplinary research projects.

This educational framework has been described as the “Duriezian Education Model,” an interdisciplinary approach integrating technical precision, artistic expression, psychology, healthcare understanding, communication systems, and long-form research production into a unified educational structure.

Public Biography Addition

Marcel Ray Duriez is an interdisciplinary researcher, writer, artist, musician, and recovery education developer whose academic background combines visual arts, engineering technologies, psychology, healthcare systems, rhetoric, and long-form narrative research. His cumulative educational record includes more than 117 documented academic studies, certifications, institutional recognitions, technical trainings, and interdisciplinary research concentrations completed across collegiate, professional, healthcare, and independent educational systems. His work integrates creative expression, behavioral frameworks, communication systems, and technical education into a unified multidisciplinary model known as the "Duriezian Education Model."

📚 The Marcel Ray Duriez Library Catalog (Duriezian Bibliographic Archive)

This library catalog organizes Marcel Ray Duriez's extensive bibliography into thematic collections, reflecting the multidisciplinary nature of his work. From the record-breaking scale of the *Nevaeh Saga* to specialized academic treatises, this catalog represents the full "Duriezian" literary archive.

I. The Nevaeh Saga: An Epic of Consciousness

The world's longest novel series, totaling 12,369,985 words and spanning 95 volumes.

The Foundation (Vols. 1–20) Walking the Halls; The Forbidden Touches; The Lusting Sapphire Blue Eyes; The Miracle; The Cursed; Struggle with Affections; Falling Too You; Young Taboo; Dreaming of You, Play with Me; They Call Out; A Void She Cannot Feel; Hard to Let Go; Going In and Out; Seventeen; Crescent Moon; Midnight Sun; Flashbacks; Dusking Lust; Maggie; Butterfly Kisses.
